"Your welding supplies specialists"

MasterTig MLS™ 2300 ACDC

2 YEAR WARRANTY

\$4625.00

Features

- 230 Amp welding current
- 230 V single phase 16 amp supply
- Easy to move, light to carry
- Welds all materials
- Generator compatible
- Digital meter display
- Expandable operation from MLS™ panels
- User personalization
- MIX TIG special current mode - thin to thick joining made easy

Applications

- Schools, Rental & Hire
- Installation & Maintenance
- Sub contractors / Site workers
- Agriculture, Boat building, Marine applications
- Car repair, Motor sports, automotive components
- Home & Hobby

P/N WRK235 Pulse Package

Kemppi Beta Welding Helmets

\$516.00

All BETA models include:

- Approved to CE EN 175B and are suitable for welding and grinding.
- Two stage 'Flip front' to provide partial or full view of the weld area through a 110 x 90 impact grade clear window.
- BETA helmets incorporate a double skin design around the hatch set 'Flip front' to improve strength and act as a thermal break so reducing internal temperatures around the welders face improving comfort.
- BETA helmets incorporate a Spatter rim around the periphery of the helmet shell designed to deflect welding spatter and grinding particles.
- BETA helmets incorporate a conical shell design, styled & cut deeply at the sides of the face, ears and neck to provide maximum protection even when working over head.

MinarcMig™ Adaptive

P/N WMK150

An adaptive tool for the mobile welder

MinarcMig Adaptive welding devices can be used to easily create successful welds. Their welding qualities and usability are on such a high level that the product family earned the distinguished Red Dot international industrial design award during 2006.

MinarcMig Adaptive 150 is particularly suitable for welding with Fe wire and solid core wire. In relation to its small size the load capacity is very high at 150 A with a 35 % duty cycle.

MinarcMig Adaptive 180 stands out with its aluminum, steel and, stainless steel MIG-MAG welding qualities. When using the automation function the control panel display shows the welding current and voltage, wire feed speed, and the material and gas combination. The load capacity of this model is 180 A with a 25 % duty cycle.

P/N WMK180

Kempact™ Pulse 3000

Benefits

- Outstanding Power to weight ratio – 22kg/250A
- Excellent Pulse Performance
- Double Pulse, Pulse, Synergic MIG
- 100 user memory channels
- Kemppi WeldSnake™ MIG gun compatible
- Easy-to-use Kemppi Process Manager™
- Power generator compatible
- Polarity change option for cored wires

Main applications

- Thin Sheet fabrication
- Repair & Maintenance
- Installation
- Outfitting

\$6635.00

P/N WMK280, Inc. Aluminium drive rolls & 4.5m torch

FastMig™ Basic KM400

The Kemppi FastMig™ Basic is designed for the basic MIG/MAG welding needs of heavy and medium heavy industry. Thanks to its stepless controls and digital displays, individual welding parameters can be fine-tuned easily and accurately.

The Joy of Welding

2 YEAR WARRANTY

Product benefits

- Efficient 400 ampere power source
- 380Amps @ 100 % load capacity
- Stepless voltage and wire feed control
- Digital displays on power source
- Compact setup with a separate wire feed
- Power source weight 35Kg
- Feeder weight 13.6Kg
- Huge energy savings

Applications

- For heavy and medium heavy industry

\$4790.00

P/N WMK430

Minarc™ 150 VRD AU

P/N WRK145

Enjoy the easyness of arc control

The superior arc performance of the Minarc products have made them well known among the welding people. The arc stability and controllability are based on a large voltage reserve and the automatic arc dynamics control.

Also, the good tolerance of input voltage fluctuations gives further reliability to Minarc's good arc performance, even in demanding field conditions and when using extra-long cables up to 50 m.

The Joy of Welding
2 YEAR WARRANTY

\$2300.00

MinarcTig™ 180 VRD AU

Features:

- 'Ready to weld' package includes necessary accessories and functions required in day-to-day TIG welding
- Versatile control panel with an easy-to-use one knob interface
- Electrode ignition pulse and anti freeze function for MMA welding
- Easy-to-grip carrying handle and a place for the reeled welding cable
- Compatibility for all of Kempfi's optional remote controllers: the hand-held R 10, foot-operated R11F, or torch remote controllers RTC 10 and RTC 20.
